

Discover Your Major Day

**SUNDAY, NOVEMBER 15**

College at Florham • Madison, NJ

## Film • Animation • Graphic Design

To make it in today's film and commercial arts industries, students must learn more than the technical. At FDU, we teach the art of filmmaking, animation and graphic design — along with the how.

**Register Today**  
to explore your interest  
in Film and the  
Commercial Arts!

# Are you interested in a career in filmmaking or animation?

*This is your chance to explore your dream as you create,  
shoot and edit with accomplished professionals.*

Join us on **Sunday, November 15** for Discover Your Major Day at Fairleigh Dickinson University's College at Florham. You'll use some of today's latest industry technology — and learn more about career opportunities in film production, design and animation.

**At this exclusive one-day experience, you'll get a chance to:**

- Use professional equipment to shoot, edit and produce live-action film.
- Create your own computer animated images.
- Work with accomplished faculty members whose professional work in filmmaking, television, computer graphics and animation have been recognized with major industry awards. They're great professionals — and even better teachers!

E-MAIL **jchirico@fdu.edu**

**IMPORTANT:** If responding by e-mail, please be sure to include your full name, address (including state and zip code) and phone number so we can send you directions and a confirmation of your reservation!

## The Script

Your day begins with registration and a continental breakfast at 10:30 a.m., followed by a series of workshops with a break for lunch.

Throughout the day, you'll have the chance to meet current students and work side-by-side with a small group of other prospective students. In the workshops, you'll get some hands-on experience in:

- **Film Production:** Work to create the perfect shot, while choreographing action, lighting and camera movement.
- **Post-production:** Work with Final Cut Pro or Avid software as professors guide you through the non-linear digital editing process.
- **3D Modeling and Animation:** Learn to use 3D Studio Max to create virtual worlds and animations.
- **2D Graphic Design:** Create dazzling Web designs using the latest computer software.

FDU's BA in Film & Animation is the choice for anyone who wants to produce, direct, animate, write and shoot as they work toward joining the growing field of film, video and digital entertainment. You'll have the chance to ask questions about our program and hear about our:

- Hands-on opportunities for real-world experience through industry internships and our Corporate Video class, which uses student crews to produce professional videos for clients.
- Exciting senior thesis films, where students actually show their films at a public movie theater.
- Opportunities for students to take part in our Feature Filmmaking class, working on an independent feature with professional actors or with faculty on award-winning documentaries.
- Internships held by our animation majors, including leading groups like MTV, ABC, Miramax, Dreamworks, Nickelodeon and Pierson Education, among others.
