Put Science to the Test — Join Us for a Day of Experimentation and Discovery!

Join us for a few hours of discovery and experiments in biochemistry, biology, chemistry and marine biology at Fairleigh Dickinson University.

Natural Sciences Discover Your Major Day

WHEN

Friday, November 13
9:30 a.m. to 1 p.m.

(Lunch Served at Noon)

WHERE

Dickinson Hall Lobby

Metropolitan Campus

Teaneck, NJ

TO REGISTER

Contact **Lorena Williams** by **Friday, Nov. 6!**

PHONE **201-692-7308**

E-MAIL **lorenaw@fd.edu**

ONLINE **www.fdu.edu/majordays**

IMPORTANT: If responding by e-mail, please be sure to include your full name, address (including state and zip code) and phone number so we can send you directions and a confirmation of your reservation!

Here's what we have planned:

Explore your interests in the natural science as you create an optical phenomenon, learn about the unity of science thesis and confront various aspects of the scientific method.

- Before the experiments begin, you'll participate in a brief introduction about the phenomenon you're about to see
- In FDU's science labs, you'll join other prospective students in a variety of hands-on experiments and interact with our faculty
- You'll be supplied with ready-made materials that will allow you to design and implement your own experiments.

In addition to learning more about our programs of study, you'll:

- Find out how we prepare students for careers in biochemistry, biology, chemistry, marine biology and other related professions.
- Hear from our faculty about their research interests and projects.
- Learn about FDU's marine biology field station in Samana, Dominican Republic.
- Meet and talk with other students interested in FDU and a career in science.

Are you thinking about a career in medicine?

Fairleigh Dickinson University has agreements with a number of well-respected professional schools to offer accelerated degree programs in areas such as medicine, dentistry, chiropractic, veterinary medicine and physical therapy.

In these programs, qualified students can earn both their bachelor's and professional degrees in less time than the two degrees would normally take!
