

# Significant Accomplishments Student Success Team-Metropolitan Campus 2008-2009

---

- The Faculty for Freshmen Subcommittee held an orientation for faculty who teach freshmen early in the fall 2008 semester. The event was well attended and feedback received was very positive.
- Subcommittee A (pre-admit to freshmen) began the process of implementing mid-semester grades for all freshmen students. Research has shown that this early intervention is very effective in promoting persistence.
- Subcommittee B (freshmen to sophomore) held the second annual Freshmen Seminar reunion at the beginning of the spring 09 semester.
- Subcommittee C (sophomore to Junior) and the Silberman College of Business held its second annual Silberman Sophomore brunch. Students and their family were able to interact with faculty from the different Silberman departments. Brunches with the other colleges will be held early in the fall 2010 semester.
- The mega committee hosted a series of six webinars throughout the spring semester on a wide array of retention based topics that were attended by several offices on campus.
- The Fall Late Knight Breakfast was attended by many faculty and staff and had a strong student turnout. The breakfast has become one of the major SST events and has been very effective in promoting the team.
