

U.S. Department of Education Regulations for Nursing Programs with Title IV HEA Funding

<https://www.ed.gov/>

The U.S. Department of Education (USDE) implemented new regulations on July 1, 2024 that apply to our registered nurse (RN) and advanced practice registered nurse (APN) programs. For each Title IV eligible nursing program, the regulation requires the program to:

- Determine that it meets the educational requirements for licensure/certification in the U.S. State where the institution is located and the U.S. State where any “distance education” students are located at the time of initial enrollment in the program; and
- Assure that (for students who enroll on or after July 1, 2024) the curriculum satisfies state educational requirements for licensure or certification in the state where the student is enrolled in distance education at the time of enrollment or meets the state educational requirements for licensure or certification where the student intends to seek employment (i.e., attests that they will be seeking licensure/certification after completion of the program).

To comply with the regulations, the following list is provided. This and other information can be found at the National Council of State Boards of Nursing website: <https://www.ncsbn.org/14730.htm>. Please note some states participate in compact (multistate) licensure: <https://nursecompact.com/>.

(List updated on March 1, 2024. We will revise this posting annually and counsel prospective students of changes between updates.)
