The Art major allows students the flexibility to explore their interests in the performing, visual, and written arts, learn new skills, and gain insight into the arts industry. Students select courses from across the full range of artistic disciplines based on their creative interests. The approach is interdisciplinary, collaborative, and tailored to the individual student.

Students choose courses from one or more of the following areas: Art, Art History, Creative Writing, Theater, Dance, Music, Film, Graphic Design, or Animation. The program encourages students to further explore opportunities outside the classroom through internships.

If you're driven
by your *creativity* and *imagination...*

then the **BA in Art** is right for you!

Our degree encourages each student to pursue their passions across a full range of creative disciplines including **Creative Writing, Studio Art, Theater, Music, Graphic Design, Film, Animation, and more.** Through a completely personalized approach, each student chooses courses from any of our arts classes, allowing students to develop the skills they need for the job they want. These classes teach our students critical skills in oral, written, visual and digital communication so that they will be competitive in today's arts industry, which requires the inter-disciplinary approach found at FDU.

The BA in Art prepares students for careers such as; teaching, acting/directing, graphic novel writing and illustration, fine art, influencing, podcast production, writing and performance, web series production, creative writing, theater/production management, design, and more.

FDU encourages students to explore opportunities outside the classroom through internships, guest lecturers, and special extra-curricular and co-curricular opportunities within the Arts, Communication, & Media Department.

YOUR PASSION
IS OUR FOCUS.

Want to be a
SUCCESSFUL
creative?

In a previous era, you'd have been told to focus on one thing and one thing only. Whether that was digital illustration, animation or acting, you'd need to buckle down, hone your focus and keep doing the same thing again and again. The Arts world is no longer confined to distinct categories; the more strings you have to your bow, the better! Today's creative industry is all about collaboration, experimentation, and pushing boundaries. In a world where AI is changing everything at super-fast speeds, **a creative professional needs to be flexible to keep up with it all.**
