

GrantForward UseCase: For Researchers

Receive Grant Recommendations

If you are too busy to search for grants regularly but still want to be updated about new potential opportunities, GrantForward will recommend relevant funding opportunities based on your research interests automatically. You can customize your interest keywords and set up a Researcher Profile to reflect your interests better and therefore receive more matching grant recommendations.

Find more GrantForward support materials, including those referenced here, as well as Guides, Administrator Tools, Tutorials, UseCases, and Webinars at [GrantForward.com/support](https://grantforward.com/support).

1. What Are Grant Recommendations?

To keep your grant awareness, GrantForward sends personalized grant recommendations based on your research interests automatically, without any effort on your end. You can totally control or tailor your recommendations by specifying more research interest keywords or adding more filters.

You can receive the recommendations via:

- **Recommendation emails:** include new matching opportunities with highlighted keywords that allow you to quickly understand why those grants are recommended and decide if you want to explore them further.

Grant Recommendations from GrantForward

Dear Vickie Harden,

Thanks for using GrantForward. We are recommending you the grants we thought are relevant to your research interests. You can view all the recommended grants to you on GrantForward at [your recommendation page](#). We recommend grants based on the information on your Grant Recommendation page. You can always improve the relevancy of your recommended grants by [customizing your interest keywords](#).

1. New Recommendations
1 new grant that matches your interests was added during this period. We recommend the following grants to you:

behavioral health mental health mental health services trauma (addiction psychology) addiction mental health nursing school mental health

2. How to Receive Grant Recommendations?

In order to receive grant recommendations, you should tell GrantForward what your research interests are. You can either add your interest keywords manually or you can create a researcher profile to allow the system to import the keywords from the profile.

Grant Recommendation

You have not set up your Recommendation Setting yet! Recommendation Email Frequency No

Recommendation is a powerful feature on GrantForward that allows you to find opportunities that match your research / study interests. You can also choose to receive periodic updates about new matching opportunities via emails.

You can set up your recommendation using the following option(s):

Customize Your Interest Keywords
GrantForward will use these interest keywords to match opportunities for you.
[Customize Keyword](#)

Use Keywords from Your Researcher Profile
Alternatively, GrantForward can import the keywords from your Researcher Profile directly and use them to recommend opportunities for you.
[Create a Researcher Profile](#)

2.1. Use Manually Added Interest Keywords

- On the **Recommendations** page, click on the **Customize Keyword** button.
- Choose **Add Keyword** to start putting in your keywords. Once you fill in the keywords, our system will suggest multiple relevant options based on your input to choose from.

Interest Keywords
You can add, remove, or adjust the significance of each keyword. The recommendation results will be tuned accordingly.

2.2. Use Keywords from Your Researcher Profile

- On the **Recommendations** page, click on the **Create a Researcher Profile** button.
- Then, you will be directed to the **Create Profiles** page to fill in information on the **Basic Information**, **Research Interests**, and **Extra Info & Profile Options** tabs.
 - At the **Research Interests** tab, use a comprehensive source that compiles and displays your complete publications, from which GrantForward can extract your research interest keywords. GrantForward allows various ways to specify your Interest Source. You can use a web page, e.g., your personal homepage or faculty directory page that contains your publications, or public profile pages such as Google Scholar, PubMed, ORCID, etc. You can also upload your CV or simply copy and paste publication citation text.
